DETAILED ACTION

Drawings

1. The informal drawings are not of sufficient quality to permit examination.

Accordingly, new drawings are required in reply to this Office action.

Applicant is given a TWO MONTH time period to submit new drawings in compliance with 37 CFR 1.81. Extensions of time may be obtained under the provisions of 37 CFR 1.136(a). Failure to timely submit new drawings will result in **ABANDONMENT** of the application. The drawings are confusing and unclear for examination. For more information, see objections made to the parent case 08/615,154. For the benefit of the applicant, these objections are set forth.

The drawings are objected to for not distinctly showing the voids, the vias, and their relative locations. Figure 1 must show the voids. Further, the depiction of (18b) and (18h) in newly submitted figure 1 is incoherent and, therefore, not approved. Figure 3 is not approved for the addition of new matter. Figure 3 depicts the size of the vias decreasing as they near the source. Further figure 3 does not show the pairs of vias in each row lined up; they are offset. This depiction is contradictory to figure 2.

Please remember to update the specification when making drawing corrections.
